Data Structures & Algorithms, Mobile App Development, UML  
Data Patterns, Data Communications Programming, Web  
Programming Tools & Frameworks, Database Design & SQL,  
Information Security, Systems Analysis and Design, GUI Design  
Principles, Object Oriented Programming

---

## Projects

### Portfolio Heroku App

- ❖ VueJS web application deployed on Heroku to host current and future projects
- ❖ Personal passion project undertook to learn Vue and improve front end development skills

**Feb 2020 - Present**

*Personal Project*

### Trip Planner Web App

- ❖ ReactJS web application using MongoDB and FeathersJS for the database management
- ❖ Three person project conducted using Agile methodologies and collaborating through github

**May 2019 - Present**

*Group Project*

### Recursive Maze Solver

- ❖ Assignments written in C++ using self built linked list to implement a disjoint set
- ❖ Solving a maze in  $O(n)$  time complexity using recursive traversal

**Sept 2019 - Dec 2019**

*School Project*

---

## Work Experience

### UberEats - Bicycle Courier

- ❖ Customer service and perseverance from dealing with customers and unfavorable weather

**Apr 2019 - Present**

*Toronto, ON*

### Pizza Hut - Dough technician, Pizza Artisan

- ❖ Responsible for opening and closing the store, attention to detail in crafting of pizzas

**Oct 2017 - Mar 2018**

*Toronto, ON*

---
